## 2. ACCOUNTING RULES

The financial statements comply with the accountancy provisions adopted by the Accountant of the European Commission in accordance with the General Financial Regulation art. 133 and 185, and the Financial Rules of the Innovative Medicines Initiative joint Undertaking, especially section 3, article 44.

### ➤ Tangible and intangible fixed assets.

Tangible and intangible fixed assets are evaluated at their purchased costs in euro (or if necessary, in foreign currency converted into euro with the exchange rate in force at the time of the purchase). The booking value of an asset is considered as being equal to its purchase price or production costs, including negative or positive revaluation amounts.

According to article 210 of the Implementation rules-and article 90 of the Financial regulation, “All items acquired whose purchase price or production cost is EUR 420 or more, with a period of use greater than one year, and which are not consumables shall be entered in the inventory and recorded in the fixed assets accounts.”

The ancillary costs are included in the asset value or recognised as a distinct asset if they will generate a future economic advantage. Any repair or maintenance is entered in charge in the book year when it occurs. The depreciation is calculated according to the straight-line method on a monthly basis in order to distribute the cost during the lifetime of the asset.

The assets might be subject to adjustment at the annual accounts closure date, and EU Accounting rule Nr 6 foresees that detailed internal and external costs linked to internally developed intangible assets should be tracked and disclosed in the annual accounts.

➤ **Receivables.**

Receivables are evaluated at their liquidated value.

No provision for doubtful account is established for transactions between European institutions and bodies (consolidated entities).

➤ **Provision**

IMI JU makes provisions when there is a legal and justified obligation which results from a past transaction and if there is a probability that its own resources have to be consumed to settle this transaction. However, the provision amount should be estimated in a reasonable and reliable way.

➤ **Contribution of founding members**

According to the note of the Accounting Officer of the Commission, subsidies and contributions that the Joint Undertaking receives from the European Union and other members are considered as investments. They will be consolidated in the books of European Union by using "Equity method". This view is also evidenced by the Commission decision SEC (2007) 607/2 and confirmed by EC accounting rule nr 1.

➤ **Revenues and expenses**

Revenues and expenses are entered in accordance with the principles of accrual basis accounting.

➤ **Financial revenues and expenses.**

According to Article 11 of the statutes of IMI Joint Undertaking, "any financial interests yielded by the contributions paid by its Members shall be considered to be revenue of the IMI Joint Undertaking.

➤ **Contingent liabilities and contingent assets**

A contingent asset is a possible right that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Agency.

A contingent liability is:

- a possible obligation, that arises from past events, and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Joint Undertaking or
- a present obligation that arises from past events but is not recognized either because it is unlikely that the Agency will use its own resources to settle the obligation or because the value of the obligation cannot be measured with sufficient reliability.

## **4. REPORT ON BUDGETARY AND FINANCIAL MANAGEMENT FINANCIAL YEAR 2010, ACCOMPANYING THE INNOVATIVE MEDICINES INITIATIVE JOINT UNDERTAKING'S ACCOUNTS (ART.41 OF IMI JU'S FR)**

### **4.1. Budgetary principles**

The budget of IMI JU has been established in compliance with the principles of unity, budget accuracy, annuality, equilibrium, unit of account, universality, specification, sound financial management and transparency as set out in the IMI JU Financial Rules.

### **4.2. Management information systems**

The IMI JU used the following software during 2010:

- ABAC – budgetary accounting system
- SAP R/3– accounting system and execution of payments
- BUSINESS OBJECT – a financial reporting tool with the support of DB BUDG (a licence has been bought for 2011)
- ALTRAN – Submission tool for applicants to IMI JU's grants

These information systems allow for the efficient management of the appropriations allocated to the IMI JU and respect the principles of the financial rules.

The workflow system in ABAC allows the Authorising Officer (or AO by sub-delegation) to ensure that the “four eyes” principle has been observed for each transaction.

### **4.3. Budget**

The budget of the IMI JU is divided in three titles.

- Title I covers staff expenditure such as salaries, training and costs associated to recruitment procedures and staff well-being.
- Title II covers the costs associated to the functioning of the IMI JU such as infrastructure, equipment and IT needs.
- Title III covers the IMI JU's operational activities.

### **4.4. Procurement**

#### **➤ Procurement procedure in IMI JU Financial Rules**

The IMI JU adopted in 2010 the “IMI Guidelines for low-value procurement procedures”. These Guidelines will facilitate IMI JU's compliance with the General Guide for Public Procurement of the European Commission and reflects the Public Procurement threshold levels set in IMI JU's financial rules for Procurement Procedures.

During the year under review, IMI JU also had two high value Procurement Procedures leading to Framework contracts published in the Official Journal: one for the IT Infrastructure and another for Ex-Post Audits. These procedures were launched jointly with other Joint Undertakings.

Moreover, in 2010, IMI JU launched procurement procedures for the development of the corporate website, for the organisation of communication events held during the year, and for the purchase of office furniture in the new premises (White Atrium).

The first ex-post publicity was carried out in October 2010 and the second publicity is foreseen for Q1 2011.

#### ➤ *The Kallas Procedure*

On 17 January 2011 the staff of IMI JU moved to a new office in the White Atrium building in central Brussels (Place Louise), following the finalisation of this so called 'Kallas Procedure'. The new office is based on an 'activity based floor planning' (partly open landscape).

This Kallas procedure was a long process that required the intensive involvement of the Joint Undertaking in the collaboration with EC, other (joint undertakings (JTI-JUs), the Office for Infrastructure and Logistics in Brussels (OIB), the owner of the building and architects. The following milestones were achieved during the two-year procedure:

- The finalisation of the first stage on 26 October 2009 and the selection of three potential buildings (out of 27 proposals) to enter the second stage of the negotiations. The first stage was fully driven by the EC and involved the participation of JTI- JUs. An EFPIA representative also attended as an observer.
- The negotiation stage two with the three shortlisted candidates was concluded by 27 April 2010. The nominated evaluation committee, comprising of representatives from both the EC and the JTI-JUs met all candidates in multiple negotiation meetings and during site visits. A full technical analysis of each building was done together with specialists from OIB.
- The negotiations with the selected candidate (BEOS, White Atrium) were finalised on 27 July 2010. The proposed contract was submitted for the approval of the Governing Boards of the JTI-JUs. The JTI-JUs' Governing Boards decisions were taken during the period July-August 2010.
- In September 2010, the JTI-JU's submitted the dossier to the Budgetary Authority (that is, the Council and the Parliament) for their opinion. Different arrangements were made for the presentation of the dossier by the JTI-JUs: for the Council, IMI and FCH presented the dossier while for the Parliamentary hearing, Eniac and Artemis were present. At both hearings the members of the budgetary committee asked questions directly to the JTI-JU Directors. The Budgetary Authority had no objections to the JTI-JUs proposals.
- The contract with the owner of the White Atrium Building (BEOS Louise) was signed by the JTI-JU Directors on 17 December 2010.

## 4.5. Revenue

The IMI JU budget of 107.150.584 EUR for 2010 was approved by the Budgetary Authority (the European Parliament and Council). IMI JU's revenue for the year was 26.936.300 EUR after the transfer from DG RTD and the payment from EFPIA to IMI JU.

The IMI JU asked and received 24.809.840 EUR from the Commission and 2.126.460 EUR from EFPIA. This represents 25% of the budget for running costs (for EFPIA).

During the year, IMI JU has also closely followed up on the cash needs in order to make proper use of the credits granted by the European Parliament and Council and EFPIA.

The low percentage of executed payments is linked to the new office; rent, furniture and the move. These commitments were done late in Q4. The payments received from the JTI-JUs (4x10.140,8=40.563,52€) have been deducted for the payment execution. A budget transfer was also done in December 2010 in order to increase the appropriation with 280.018 EUR and to cover the foreseen commitments for the setting up of IMI JUs IT infrastructure in White Atrium. The budget was transferred from Chapter 26 – 'running costs in connection with operational activities' (refer to further point 3.4.2 on budget transfer)

As it was initially foreseen that the JTI-JUs would move from Covent Garden during Q3, the contracts conclude by DG RTD to support the setting up of the JTI-JU ended in October 2010. Therefore, this execution refers only to the two months of 2010.

## 4.8. Activities

### 4.8.1. Title 1 and Title - 2 Running Costs

#### ➤ Revenue and budget execution conciliation

IMI JU has received payment of 40.563,52 EUR from the other JTI-JUs for the sTESTA which has been allocated as follows:

- For payments linked to 2010 commitment, an amount of 20.281,50 EUR has been deducted from payments C1 Chapter 21
- For payments linked to commitment 2009, an amount of 20.281,50 EUR has been deducted from payments C8 Chapter 26

IMI JU has received from staff members their share of (6) parking fees in Covent Garden amounting to 3.000 EUR. These have been deducted from the payment execution of Chapter 20.

#### ➤ Management

During the year, IMI JU handled 800 financial files; payments, provisional and individual commitments, recovery orders and management of budget appropriations.

In total, 37 administrative commitments have been transferred to the financial year 2011 out of one commitment for mission expenditures to be finalised before end-March 2011.

#### ➤ Result

IMI JU paid in total 3.146.407,62 EUR out of 2.816.595,06 EUR from C1 (current budget) and 329.812,56 EUR from C8 (commitments done in 2009).

In line with Art 10 & 11 of IMI's Financial Rules, the unspent appropriation from the 50% EC contribution may be moved to Title 3 after a decision by the Governing Board. For 2010, a request for a transfer of 2.178.249 EUR to Operational activities was submitted IMI JU Governing Board in January 2011. With following clarification:

- The yearly EFTA contribution shall be included in the European Commission contribution and not declared in addition. In the closure of the financial year 2010, IMI JU needed to consider the contribution 50/50 from European Commission and EFPIA with result that the carried over appropriation of 2 178 249€ is 52 920 EUR lower then if IMI JU could calculate the EFTA contribution "on top" European Commission's contribution. From 2011, in both Draft Budget and Preliminary Draft Budget 2012 the EFTA contribution is included in the budget to avoid further discrepancies in the future.

#### 4.8.2. Title 3 - Operational Activities

The operational pre-financing paid to the Joint Undertaking's 15 grant agreements (Call 1) amounted to 34.704.183 EUR, two late interest payments (PHARMA COG and E-TOX) for 3.472,79 EUR and one interim payment of 534.382 EUR was also executed to the project PHARMA TRAIN, in total IMI JU paid 35.242.037,79 EUR to our grant beneficiaries.

The budget lines under Title 3 are differentiated. Commitment appropriations are multi-annual and payment appropriations are annually requested. In line with the EC Financial Regulation and due to the fixed set-up of ABAC system, surplus payment appropriations are cancelled at the end of the current financial year. However, IMI JU's Financial Rules Art 10 (Title 3) allows the joint undertaking to transfer surplus appropriations (both commitments and payment appropriations) for up to three financial years. Due to the technical constraints of ABAC following EC Financial Rules, the only solution given by DG BUDG to implement this rule was to use the fund source C2 for the carry-over actions.

The IMI JU Governing Board approved by a written procedure in Q1 2011 the balance carried over from 2009 to 2010 for payment appropriations 78.643.200 EUR and the transfer of 2.096.872 EUR of unused budget appropriations from Title 1 and Title 2 – Running cost (EC contribution Art 11 Council Regulation) to Title 3 - IMI Research agenda.

##### ➤ Call 1

IMI JU concluded 15 Grant Agreements in Q1-Q2 for Call 1. The first pre-financing payments were made from the 2010 payment appropriation (20.504.000€) and after exhausting these appropriations, 14.200.183 EUR was paid from the balance carried over from 2009 (C2) of 78.643.200 EUR. One payment for the cost claim of 534.382 EUR made to PHAMRA TRAIN was also paid from C2.

##### ➤ Call 2

The global commitment made by EC in Q4 2009 (78.643.200€) was increased by the 2.096.872 EUR carried over from 2009 (C2). After the Stage 2 evaluation of Call 2, the Governing Board agreed to use the extra available appropriations (2.096.872€) for Call 2 and the global commitment was, therefore, increased to 80.740.072 EUR.

In December 2010, 5 individual budgetary commitments were posted against the global commitment. The Grant Agreements will be signed in Q1 2011 and this will be followed by pre-financing payments.

#### 4.8.3. EFPIA

On the basis of the financial agreement between IMI and EFPIA and the request submitted by IMI, EFPIA makes an advance payment based on the annual adopted budget.

In general, any contribution which is not used by the end of the financial year as well as any amount that is overpaid or underpaid is carried forward to the budget of the following financial year.

The positive or negative balance of EFPIA's contribution is adjusted in the first instalment of the following financial year.

The draft budget plan of the 2011 budget included an estimation of the positive balance carried forward at the beginning of the year. The exact amounts are presented below:

Year	EFPIA	50% of payments executed in 2009 (C1)	50% Payments executed 2010 for 2009 (C8)	50% of payments executed in 2010 (C1)	Balance

2009	539.220,90	397.989,50	164.906,28		-23.583,88
2010	2.126.460,00			1.408.297,53	+718.162,47
